## LABOR BOARD SAYS STRIKE MUST NOT BE CALLED

## STRIKERS WILL BE HELD IN REBELLION IF WALKOUT OCCURS

(By Associated Press)

CHICAGO, Oct. 27.—Noon passed today with the "Big Five" union executives in a long executive conference on the possibilities of a strike settlement. Ben W. Hooper, of the railroad labor board, was before the conference presenting what he described as a "vague possibility" for a settlement.

The terms of the railroad labor board's final ruling on the strike, if the board decides one shall be necessary, as discussed informally by members of the board, brought out these salient points:

1. That the impending walkout must not be called.

2. That the walk-out, if called, will be in violation of the transportation act and in rebellion against decision 147, the July 1 wage cut by the board.

3. That the board will regard the strike, if called for any other reason than dissatisfaction with the July 1 decision, as evidence of a "conspiracy to paralyze transportation." The board holds it will be contrary to court decisions; that the "right to strike" exists only where the strike is called upon grounds set forth in strike ballots.

4. That the members of the "Big Five" and "Telegraphers" unions remain at work and rely upon the board to safeguard their interests from further encroachments possibly contemplated by the railroads.

The railroad labor board meanwhile marked time with the meeting of members scheduled for this afternoon with the question whether they should issue an order forbidding the strike or attempt court action as among the possibilities for consideration.

District Attorney Clyne conferred with the district attorneys of several middle western cities to convey instructions issued by Attorney General Daugherty regarding the railroad strike, and they then left for other cities in the west to communicate the strike program to the district attorneys.

The executives of the five unions reassembled in joint session at 3 o'clock. Just before the meeting President Lee of the trainmen said: "The situation is unchanged insofar as the trainmen are concerned. Our strike ballot says that when one of the other unions goes out, we go. That stands."

Three grand vice-presidents of the engineers, Daugherty, Griffing and Burgess, arrived at labor board headquarters and went into conference with Hooper. Asked if he brought good tidings, Daugherty replied: "Yes, but don't imagine that means too much."

## BANDIT SHOOTSELF TO DEATH IN COAST CITY

(By Associated Press)

SAN FRANCISCO, Cal., Oct. 27.—The body of a young man with a bullet wound in the head was found today in a vacant lot here, and was partially identified later by W. W. Needham, and William S. Fleming, postoffice clerks, as the bandit who early yesterday morning shot and killed Frank H. Adams, guard at the ferry postoffice, and escaped with a pouch of registered mail. Both men said the dead youth resembled the bandit in a general way, but that they could not be sure. He said the body was found a 45-caliber automatic pistol similar to that used by the postoffice bandit.

## EXCITEMENT IS GROWING OVER NEW DISTRICT

The camp of Hudson, now known as Logan, is assuming a considerable growth, and already a general store and woodyard has been established by John W. Lucas of Tonopah. There are a great many miners in the district and the ore showings are said by men who are versed in the great industry to be most remarkable. The prediction is freely made that the San Antonio district is going to experience a genuine old-fashioned mining boom and that a camp of permanency is in the building.

Scores of mining men have visited the district during the past couple of weeks and the opinion is unanimous that the new camp is destined to give a good account of itself in the future and that a number of big producers will be developed.

## GOLDFIELD MEN SECURE CLAIMS AT LOGAN CAMP

The silver camp in San Antonio district, 59 miles north of Goldfield, formerly known as Hudson, has been rechristened Logan. The former name was due to the fact that the Hudson Mining company had holdings there.

A. H. Merrill, W. E. Edwards, J. Alvord and Joe Kendall have returned from the strike, bringing rich specimens, one of which carried 48 per cent lead, 5000 ounces silver and 3 ounces gold. They report that many tents have been pitched and about 30 men are already in camp. Eighteen sets of leases have been granted and there are surface showings on all blocks.

"The geological features," said Mr. Edwards, "are that the hanging wall appears to be quartzite, but I think this is only a capping and that at depth the true hanging wall will prove to be old rhyolite. The footwall is a highly altered shale, almost metamorphic."

"The ore is absolutely soluble and I think the smelters would pay a premium for it because of its lead content."—Tribune.

Many interested in the San Antonio district say they will not stand for the name of Logan, but that the name of Hudson must stand, unless a public meeting is called and some other name is agreed upon.

## WOULD COMPETE AMERICAN CUP IN AUSTRALIA

SYDNEY, N. S. W., Oct. 27.—A yacht should be built at Auckland to compete for the America cup on behalf of Australia and New Zealand, it was suggested here by T. M. Wilford, member of the New Zealand parliament, upon his return here from the United States. He expressed belief that such a venture is practicable and would advertise both countries in the United States, where he said he had found an "appalling ignorance" regarding Australia.

## BLANTON WILL NOT BE FIRED OUT OF HOUSE

(By Associated Press)  
WASHINGTON, D. C., Oct. 27.—The house defeated a resolution to expel Blanton, and the action forced a favorable vote on a resolution to censure and a direct public repudiation of the Texas member. It needed only votes of the necessary two-thirds.

The house of representatives then stood to censure and to direct the speaker to reprimand Blanton publicly. When it was apparent the resolution of censure would be adopted by a wide margin, Speaker Gilchrist announced he would reprimand Blanton before his colleagues immediately after completion of the vote. Blanton was called before the speaker for censure and fainted, falling upon his face.

## POLICE TO BE AIDED BY NUMBER OF BOYS

Halloween, dreaded by residents of every town and city in the United States, a night when the police departments are kept on the alert awaiting information from remote neighborhoods where gates are disappearing and sheds are overturned, with the usual tick-tack and other annoyances, promises to be unusually tame this year.

Chief of Police W. R. Cochran and his assistants expect to have little trouble next Monday night, having enlisted the aid of a number of boys who will assist in maintaining peace and quietude. He has organized the "Juvenile Protective Battalion" and the membership is open to boys between 10 and 15 years of age. All a boy has to do is to call at police headquarters and he will be enrolled as a regular police officer for one night. Boys are boys and they can enjoy themselves without resorting to destruction of property and the juvenile officers are going to have the privilege of assisting in law enforcement on Halloween.

## LLOYD GEORGE LIKELY CANCEL VISIT TO U. S.

(By Associated Press)

## HUDSON BEGINS SHOWING SIGNS OF PERMANENCY

Hudson, the new-old mining camp in the San Antonio district, continues to gain in popular favor and a prosperous little community is fast being built. The latest evidence to enter that field is the Ben Hur Dividing Mining company, which has taken a bond and lease on the Flagstaff and Hudson Extension No. 1 lode mining claims, owned by the Hudson Mining company. These claims adjoin the Little Hill and Chico on the west, and development of the holdings will at once be inaugurated by the Ben Hur management.

The Betts lease is reported to be showing stronger in mineral values as development is carried forward, and at present there is ready for shipment close to 10 tons of ore that show assay values of close to \$1000 a ton. Ore is being sacked from the McCarthy lease, which lies about 300 feet to the south of the Betts shaft, and average values of \$100 a ton are reported.

Beko & Hand, who recently secured a lease on the C. O. D. claim, have exposed a two-foot vein of ore in a 3-foot trench that has a length of 20 feet and assays show values of \$100 and better a ton.

There are a half-dozen leasers prosecuting operations and in every working pay ore is exposed. More privileges have been granted, and within another week the camp will be showing a great deal of activity. Several tents dot the district and it begins to look as though a real mining camp was in the building.

(By Associated Press)
